

# MESSAGE FROM THE CHAIRMAN

Timothy J. Allen, P.L.S.

Timothy J. Allen, P.L.S.  
Chairman

It is with a great sense of pride that I deliver my first communiqué to the registrants and other readers of the *Louisiana Engineer*. I am humbled to have been elected Chairman of the LAPELS board by my peers and I look forward to conducting the business of the Board for the next twelve months in an efficient and professional manner. I hope the trend established at our March Board meeting continues. At that meeting we covered several hearings and a multitude of issues in an expeditious and thorough manner. My creed, and that of my employer, Apache Corporation, is to tackle your duties with a sense of urgency. With the hard work and dedication of the talented LAPELS Board and qualified staff, we will do just that.

I would like to take this opportunity to thank my friend and mentor, C.L. "Jack" Stelly PLS, for his six years of dedicated service to the citizens of Louisiana and the Surveying and Engineering registrants of LAPELS. Mr. Stelly was the epitome of great board member – always thoughtful, informative & conscientious in his work, and fair and impartial in his decision making. As some of you may already know, Jack was the victim of a tragic hunting accident in January that resulted in the amputation of his left leg below the knee. Jack has handled this life-altering injury in the same manner as he's taken on other tough issues during his career, with grit and determination that will see him through to the end. No one expected Jack to attend the March LAPELS meeting, yet there he was in his wheelchair taking care of the business of the board. How befitting it was for him to make the motion to adjourn on his final Board meeting only six weeks after his tragic accident. Mr. Stelly, I wish you the best in your rehabilitation and recovery, and thank you immensely for your loyal service to LAPELS.

Mr. Stelly's replacement on the LAPELS board was made by Governor Jindal in mid-March. Join me in congratulating Mr. M. Ernest

Gammon PLS of Baton Rouge as the newest Board appointee. His six-year term commences on April first and I am confident that Ernie will be a tremendous asset to the board, just as he has been to the surveying community his entire professional career. I look forward to working with Ernie and regret that I'll only be working with him for twelve months. Read more about Ernie through his biography which is printed on page 4 of this publication.

I would also like to use this forum to publicly thank Mr. Robert Eddleman, who is retiring from the LAPELS staff, for his eleven years of service to the Board. Robert came to LAPELS as an investigator working under the direction of Mr. Ben Harrison. Through hard work and dedicated service, Robert became Director of Enforcement and eventually took on the dual role of Deputy Executive Secretary. I am happy for Robert and his family but saddened by the loss of experience and wisdom that is walking out of the door with him. He leaves behind a trained and energetic enforcement staff that will carry on the Boards enforcement work in an efficient and professional manner. Enjoy your retirement, Mr. Robert Eddleman.

I had the wonderful opportunity to attend a Board Presidents Assembly hosted by NCEES back in February. It was designed to be a brief training course for incoming chairmen of their respective engineering/surveying boards and was quite informative and enlightening. But as with most other gatherings of surveyors and engineers, the exchange of information is more candid 'off the record' in a relaxed atmosphere after hours than in a formal classroom setting. In other words, I learned more speaking with the other attendees while sharing a drink. I was amazed at how dissimilar many of the registration boards are throughout the country and the multitude of issues many currently face. Through this dialogue I realized how well the Louisiana Professional Engineering and Land Surveying board is organized and how well it operates.

Here in Louisiana we truly do have a working board and excellent staff that really take care of business. Not all states can make that claim. Louisiana's status as a respected registration board in this nation is directly attributable to the service to the board by past Board members and staff. I assure you that over the next twelve months I will continue to build upon the successes the LAPELS board has enjoyed.

## MARK YOUR CALENDAR

### LAPELS Board Meeting Dates

- May 13 (New Orleans), 2009
- July 20 – 21, 2009
- September 21- 22, 2009
- November 16 - 17, 2009

### EXAMINATION DATES

- October 23 – 24, 2009
- April 16 – 17, 2010
- October 29 – 30, 2010

### APPLICATION DEADLINES

(FOR FIRST TIME APPLICANTS)

- June 1, 2009  
for October 2009 exam
- December 1, 2009  
for April 2010 exam

*\*Note – If your application is 3 years or older or if you have been unsuccessful in passing the exam 3 or more times, other requirements must be met.*

LAPELS LA PROFESSIONAL ENGINEERING AND LAND SURVEYING BOARD

# FROM THE EXECUTIVE SECRETARY

Donna D. Sentell, Executive Secretary

Do you have a record? If not, I want to encourage you to get one – that is a Council Record with NCEES.

The National Council of Examinations for Engineers and Surveyors (NCEES) provides a service for licensees to maintain professional records in a single, secure location.

You may establish a record with NCEES either by applying online (<http://www.ncees.org/records/>) or by mail. To apply, you will need to provide your college transcripts, professional references, work verifications and exam results. Once established, your record can be electronically transmitted to any state licensing board you request.

This service allows for easier professional mobility if you have, or wish to have, licensure in multiple jurisdictions. Records are accepted by every licensing board in the country. It is an efficient, fast track program which offers transferrable records as well as much less paperwork. These records will elimi-

nate the need to complete multiple applications with various jurisdictions.

Whether you qualify to be a Model Law or Non-Model Law Engineer/Surveyor, the question during these competitive and busy times, is why wouldn't you take advantage of the opportunity to simplify your professional record keeping in order to enhance your career?

You are encouraged to visit the NCEES Council Records website (<http://www.ncees.org/records/>) or call the NCEES Records Department and speak with a staff member at (1-800-250-3196) to review the requirements and applicable fees associated with this program. Do it today, so you too can have a record.

Donna D. Sentell  
Executive Secretary

## NEW BOARD MEMBER

Mr. Gammon is a 1970 graduate of Mississippi State University, where he received a B.S. degree in Management. He is employed by Hydro Consultants, Inc., a Baton Rouge surveying, mapping and engineering firm which primarily serves the petrochemical, refining and pipeline industries. He began his surveying career working for a Baton Rouge engineering and surveying firm during summer breaks while attending college, and continued his employment with that firm until 1984, at which time he participated in the founding of Hydro Consultants.

Mr. Gammon is registered as a Professional Land Surveyor in Louisiana, Mississippi, Arkansas, Alabama and Florida, and is a Board-Certified Hydrographer. He is a member of the National Society of Professional Surveyors (NSPS), is a Fellow Member of the American Congress on Surveying and Mapping (ACSM), and is a member of several surveying societies in the various states in which he is licensed to practice. He is a past-president of the Louisiana Society of Professional Surveyors, served eight years on the LSPS Board of Direction, and served on numerous LSPS committees,

including the Continuing Education Committee, the Trig-Star Committee, the Professional Practices Committee and the PLS Exam Committee. He also represented LSPS on several *ad hoc* Registration Board committees that dealt with expansion of the Board and the revision of various rules of the Board. In addition, he served four years as the LSPS Liaison to the Registration Board, served two terms on the Nicholls State University Geomatics Advisory Board and was the 1998 recipient of the LSPS *Surveying Excellence* Award.

At the national level Mr. Gammon has served five terms on the Board of Governors of NSPS, during which time he served on the NSPS Education Committee and the NSPS Standards of Practice committee, chaired the NSPS Continuing Education Committee and served as a delegate to the POLC. Following his service on the NSPS Board of Governors he served two terms on the Board of Directors of ACSM, and later served two terms on the ACSM Hydrographer Certification Board.

Ernie and his wife Glenna have resided in Baton Rouge since their marriage in 1971, and are members of the South Baton Rouge Church of Christ. They have two sons, Ernie, Jr. and Chris, and five grandchildren. Ernie is an avid fisherman, enjoys hunting, and frequently engages in shotgun clays competition. He has been actively involved for over 30 years in conservation programs in the Atchafalaya Basin, and is a recipient of the Louisiana Wildlife Federation's *Conservationist of the Year* award. He is an active member of the National Rifle Association and regularly devotes time to NRA firearms education programs.

M. Ernest Gammon, Sr., P.L.S.

### Board Members

Timothy J. Allen, P.L.S.  
Chairman

James D. Garber, Ph.D., P.E.  
Vice Chairman

Rhaoul A. Guillaume, P.E.  
Secretary

Mark A. Jusselin, P.E.  
Treasurer

Roger D. Danzy, P.E.

Ali M. Mustapha, P.E.

Norma Jean Mattei, Ph.D., P.E.

Richard L. Savoie, P.E.

James E. Bowie, Jr., Ph.D., P.E.

Miles B. Williams, P.E.

M. Ernest Gammon, Sr., P.L.S.

### Board Staff

Donna D. Sentell  
Executive Secretary

Heidi G. Watts  
Executive Assistant

# DISCIPLINARY AND ENFORCEMENT ACTIONS

Justin Owens, Board Investigator

Justin Owens

## NEW LICENSE RENEWAL INVOICES

Licensees renewing their Louisiana professional licenses this spring have likely noticed the “new look” of the renewal invoice. In order for a license to be renewed, licensees must now affirm their desired status by marking one of four license status indicator boxes representing “Active”, “Inactive”, “Retired” or “Expired” status.

Licensees must also affirm whether or not they have met the Continuing Professional Development (“CPD”) requirements of the Board by marking the appropriate box. If a licensee affirms he has not met the CPD requirements of the Board, he must indicate the reason by marking one of four indicator boxes representing “New license”, “Inactive”, “Retired”, or “Other (requires letter of explanation)”.

Lastly, licensees must affirm whether or not they have been disciplined in another licensing jurisdiction, convicted of any criminal violation, or entered a plea of guilty or nolo contendere to any charge other than traffic violations since their last renewal, by marking the appropriate box. Licensees who affirm they have been disciplined by another licensing jurisdiction must report it accordingly. Licensees who affirm they have been convicted of any criminal violation, or entered a plea of guilty or nolo contendere to any charge other than traffic violations since their last renewal must provide the pertinent facts of the case or proceeding, including its final disposition.

After completing these sections of the renewal invoice, licensees must then sign and date the invoice. Failure to complete any part of the invoice or failure to sign and date the invoice will result in it being returned to the licensee and delaying the renewal of the license until the invoice has been completed.

Should you have any questions about the new invoice, don’t hesitate to contact the Board office at (225) 925-6291.

The Board continues to investigate alleged violations of law and rules which regulate the practice of engineering and land surveying in Louisiana. Substantiated violations result in disciplinary or enforcement action being taken either through Consent Orders or by Board Orders following a formal hearing at which the respondent is adjudged guilty of one or more violations. Below are summaries of some of the disciplinary/enforcement actions taken by the Board since the previous issue of the Journal.

## PRACTICE OF ENGINEERING AND/OR LAND SURVEYING WITH AN EXPIRED LICENSE:

**George A. Evans, Jr., P.L.S.**, a licensed land surveyor (PLS-4750), was subject to disciplinary action by the Board for practicing and/or offering to practice land surveying in Louisiana with an expired license in violation of La.

R.S. 37:698(A)(9) and (16). Mr. Evans practiced and/or offered to practice land surveying in Louisiana after October 1, 2004, during which time his Louisiana professional land surveyor license was in an expired status. Mr. Evans has entered into a Consent Order with the Board, wherein he admitted to violations of the above statutes and agreed to pay a fine of \$2,500, to pay administrative costs of \$445.09, to either immediately cease and desist the practicing and/or offering to practice land surveying in Louisiana with an expired license or renew his expired license, to submit to the Board an up-to-date, complete Professional Development Activity Log and all supporting documentation for the October 1, 2004 to September 30, 2006 renewal period, to pay all past unpaid renewal fees of \$360, to successfully complete the Board’s online Louisiana Laws and Rules Examination, to successfully complete the Board’s online Louisiana Professionalism and Ethics Examination, and to the printing of a summary of this matter by name in this publication and the reporting of this matter by name to NCEES.

**Philip B. Curwick, P.E.**, a licensed engineer (PE-22803), was subject to disciplinary action by the Board for practicing and/or offering to practice engineering in Louisiana with an expired license in violation of La. R.S. 37:698(A)(9) and (16). Mr. Curwick admitted that he provided engineering services in connection with multiple projects in Louisiana between April 1, 2007 and October 11, 2007, during which time his Louisiana professional engineer license was in an expired status. Mr. Curwick has entered into a Consent Order with the Board, wherein he admitted to violations of the above statutes and agreed to pay a fine of \$500, to pay administrative costs of \$257.35, to successfully complete the Board’s online Louisiana Laws and Rules Examination, to successfully complete the Board’s online Louisiana Professionalism and Ethics Examination, and to the printing of a summary of this matter by name in this publication and the reporting of this matter by name to NCEES.

**H. Timothy Howell, P.L.S.**, a licensed land surveyor (PLS-4721), was subject to disciplinary action by the Board for practicing and/or offering to practice land surveying in Louisiana with an expired license in violation of La. R.S. 37:698(A)(9) and (16). Mr. Howell prepared, signed and sealed thirty survey plats in Louisiana between April 1, 2005 and July 2007, during which time his Louisiana professional land surveyor license was in an expired status. Mr. Howell has entered into a Consent Order with the Board, wherein he admitted to violations of the above statutes and agreed to pay a fine of \$1,000, to pay administrative costs of \$291.44, to pay all past unpaid renewal fees of \$360, to successfully complete the Board’s online Louisiana Laws and Rules Examination, and to the printing of a summary of this matter by name in this publication and the reporting of this matter by name to NCEES.

*continued on next page*

## UNLICENSED OFFER AND/OR PRACTICE OF ENGINEERING AND/OR LAND SURVEYING:

**Material Handling Consulting, L.L.C.**, an unlicensed firm which subsequently became licensed (EF-4019), was subject to enforcement action by the Board for the practice of and/or offering to practice engineering or the use of the word “engineering” or any modification or derivative thereof in its form of business or activity in Louisiana without proper licensure in violation of La. R.S. 37:681 and 37:700(A)(1) and (7). From 2005 until it became licensed in 2009, the firm’s employee (on behalf of and in the name of the firm) practiced and/or offered to practice engineering in Louisiana and the firm’s website listed its services as including engineering and its office address as being in Louisiana. The firm has entered into a Consent Order with the Board, wherein it admitted to unintentional violations of the above statutes and agreed to pay a fine of \$1,000; to pay administrative costs of \$170.37; to immediately cease and desist the practice of and/or offering to practice engineering and the use of the word “engineering” or any modification or derivative thereof in describing its business or activities or on its website, written solicitations, business cards or other documents in Louisiana until it is duly licensed by the Board; and to the printing of a summary of this matter by name in this publication and the reporting of this matter by name to NCEES.

**Clark Seif Clark, Inc.**, an unlicensed firm, was subject to subject to enforcement action by the Board for offering to practice engineering and using the word “engineer”, “engineering” or any modification or derivative thereof in its firm name or form of business or activity in Louisiana without proper licensure in violation of La. R.S. 37:681 and 37:700(A)(1), (7) and (9), to wit LAC Title 46:LXI§2301(B) (1). In 2006, the firm maintained an office in Louisiana and had its unlicensed employees in Louisiana issue written solicitations and business cards to persons in Louisiana which (a) described the firm as an “environmental and engineering company”, (b) used the word “engineering” in its firm logo and (c) described its staff members as including “Professional Engineers”, “Biological Engineers”, “Physical Engineers” and “Safety Engineers”. Following a formal hearing, the firm was found to have committed violations of the above statutes and rules and was assessed the following sanctions: fine of \$2,500; actual costs of \$2,825.13; immediately cease and desist the practicing and/or offering to practice engineering in Louisiana, including the use of the word “engineer”, “engineering” or any modification or derivative thereof in connection with its title or logo or in describing its business or activities in its written solicitations, business cards, statements of qualifications or other documents, until it fully complies with the Board’s requirements for firm licensure; and the printing of a summary of this matter by name in this publication and the reporting of this matter by name to NCEES.

**Marc Victoriano**, an unlicensed individual, was subject to enforcement action by the Board for offering to practice engineering and using the word “engineer”, “engineering” or any modification or derivative thereof in his name or form of business or activity in Louisiana without proper licensure in violation of La. R.S. 37:681 and 37:700(A)(1), (7) and (9). In 2006, the unlicensed individual had business cards issued to persons in Louisiana which included the acronym “S.E.” after his name and used the word “Engineering” in his unlicensed employer’s firm logo. Additionally, the unlicensed individual had written solicitations issued to persons in Louisiana which described his unlicensed employer as an “environmental

and engineering company”, used the word “engineering” in his employer’s firm logo, and described his employer’s staff members as including “Professional Engineers”, “Biological Engineers”, “Physical Engineers” and “Safety Engineers”. Following a formal hearing, the unlicensed individual was found to have committed violations of the above statutes and was assessed the following sanctions: fine of \$500; actual costs of \$2,825.13; and the printing of a summary of this matter by name in this publication.

## MULTIPLE STATUTES AND/OR RULES:

**Don W. Duff, P.E.**, a licensed engineer (PE-15417), was subject to disciplinary action by the Board for (a) practicing and/or offering to practice engineering in Louisiana with an expired license in violation of La. R.S. 37:698(A)(9) and (16) and (b) having aided or assisted an unlicensed firm in practicing and/or offering to practice engineering and using the word “engineering” or any modification or derivative thereof in its form of business or activity in Louisiana without proper licensure in violation of La. R.S. 37:698(A)(12). Mr. Duff admitted that he provided and offered to provide engineering services in connection with numerous projects in Louisiana between April 1, 2006 and June 19, 2008, during which time his Louisiana professional engineer license was in an expired status. From 2005 until 2009, Mr. Duff, on behalf of and in the name of his unlicensed firm (Material Handling Consulting, L.L.C.), practiced and/or offered to practice engineering in Louisiana and the firm’s website listed its services as including engineering and its office address as being in Louisiana. The firm subsequently became licensed in Louisiana. Mr. Duff is the owner and supervising professional of the firm. Mr. Duff has entered into a Consent Order with the Board, wherein he admitted to unintentional violations of the above statutes and agreed to pay a fine of \$1,000, to pay administrative costs of \$170.37, to pay all past unpaid renewal fees of \$180, to successfully complete the Board’s online Louisiana Laws and Rules Examination, to successfully complete the Board’s online Louisiana Professionalism and Ethics Examination, and to the printing of a summary of this matter by name in this publication and the reporting of this matter by name to NCEES.

**Jairzinho O. Vasquez, P.E.**, a licensed engineer (PE-31867), was subject to disciplinary action by the Board for (a) having been disciplined by the licensing authority of another state for matters recognized as grounds for disciplinary action in Louisiana at the time the action was taken in violation of La. R.S. 37:698(A)(7) and (b) fraud, deceit, material misstatement, perjury or the giving of false or forged evidence in applying for a license in violation of La. R.S. 37:698(A)(1). In 2008 Mr. Vasquez was disciplined by the Oklahoma board for (i) knowingly making false statements or signing false statements, certificates or affidavits and (ii) attempting to mislead the Kentucky board and any other licensing board relying on his NCEES record in connection with his application for licensure to practice engineering in Kentucky. The Oklahoma board (a) ordered him to pay an administrative penalty of \$1,000, (b) ordered him to successfully complete an ethics course, (c) ordered him to provide the Oklahoma board a copy of his 2009 NCEES renewal form at the time he submits the same to NCEES, and (d) immediately suspended his Oklahoma license until he pays the administrative penalty and provides proof of the completion of the ethics course. The Oklahoma board had previously taken disciplinary action against Mr. Vasquez for (a) offering to practice engineering in Oklahoma without being licensed as a professional engineer and (b) failing to provide information requested by the Oklahoma

continued on next page

board within thirty days from the time requested. In that case the Oklahoma board ordered him to pay a fine of \$500. Mr. Vasquez contends that (a) he misunderstood this 2006 action by the Oklahoma board to be a "private disciplinary action", as opposed to a "public disciplinary action" and (b) this misunderstanding was the basis for the 2008 disciplinary action by the Oklahoma board. On April 4, 2007 Mr. Vasquez submitted to the Louisiana Board an Application for Licensure as a Professional Engineer by Comity, affirming thereon that his license to practice engineering had never been the subject of a disciplinary action by any state. Mr. Vasquez has entered into a Consent Order with the Board, wherein he admitted to violations of the above statutes and agreed to pay a fine of \$2,000; to pay administrative costs of \$383.26; to successfully complete the Board's online Louisiana Laws and Rules Examination; to successfully complete the Board's online Louisiana Professionalism and Ethics Examination; and to the publishing of the Consent Order on the Board's website, to the printing of a summary of this matter by name in this publication and to the reporting of this matter by name to NCEES.

**Bobby G. Lamb, P.E.**, a licensed engineer (PE-11615), was subject to disciplinary action by the Board for (a) making a false statement in applying for a renewal license in violation of La. R.S. 37:698(A)(1) and (b) failing to comply with the continuing professional development (CPD) requirements of the Board in violation of La. R.S. 37:698(A)(6), to wit LAC Title 46:LXI§3105, 3117 and 3119. In 2007 Mr. Lamb falsely stated on his license renewal form that he had met the Board's CPD requirements for the renewal period of October 1, 2005 to September 30, 2007. In 2008 Mr. Lamb failed to submit appropriate proof of CPD compliance in response to a Board audit and then failed to submit such proof within 120 days after notice of noncompliance from the Board. Mr. Lamb has entered into a Consent Order with the Board, wherein he admitted to violations of the above statutes and agreed to pay a fine of \$500, to pay an administrative fee of \$200, to pay administrative costs of \$235.59, to have his licensure status changed from "Active" to "Retired", and to the printing of a summary of this matter by name in this publication and the reporting of this matter by name to NCEES.

#### SEALING VIOLATIONS:

**Thomas E. Pittman, P.E.**, a licensed engineer (PE-19516) was subject to disciplinary action by the Board for signing and sealing engineering plans which had not been prepared under his responsible charge in violation of La. R.S. 37:698(A)(6), to wit LAC Title 46:LXI§2503(C) and (D), 2505(C) and 2701(A)(3). In 2007 Mr. Pittman signed and sealed engineering plans for the construction of a new church building in Louisiana, without personally supervising or directly controlling either the preparation of the plans by the unlicensed draftsman or any other work performed by that individual in connection with the project. Following a formal hearing, Mr. Pittman stipulated to final findings of fact and conclusions of law and a final decision and order, wherein he was found to have committed violations of the above statute and rules and was assessed the following sanctions: suspension of his Louisiana professional engineer license for 18 months beginning January 26, 2009; actual costs of \$5,000.00; successful completion of the Board's online Louisiana Laws and Rules Examination; successful completion of the Board's online Louisiana Professionalism and Ethics Examination; completion of 30 hours of continuing professional development related to building system design;

and the publication of the stipulated final findings of fact and conclusions of law and stipulated final decision and order on the Board's website, the printing of a summary of this matter by name in this publication, and the reporting of this matter by name to NCEES.

#### GROSS NEGLIGENCE AND/OR GROSS INCOMPETENCE IN THE PRACTICE OF LAND SURVEYING:

**Lester G. Rainey, P.L.S.**, a licensed land surveyor (PLS-4674), was subject to disciplinary action by the Board for committing gross negligence and/or gross incompetence in the practice of land surveying in Louisiana in violation of La. R.S. 37:698(A)(2). Mr. Rainey originally prepared, sealed and issued to his client a survey plat and legal description for property in Louisiana which had incorrect tract positions and mislabeled corners. Upon being notified by his client of a problem with the survey plat and legal description, Mr. Rainey prepared and sealed a corrected survey plat and legal description, but failed to record or provide the corrected survey plat to his client. Following a formal hearing, Mr. Rainey was found to have committed a violation of the above statute and was assessed the following sanctions: fine of \$1,000; actual costs of \$4,337.97; successful completion of the Board's online Louisiana Laws and Rules Examination; successful completion of the Board's online Louisiana Professionalism and Ethics Examination; successful completion of the Board's online Louisiana Minimum Standards Examination; and the publication of the final findings of fact and conclusions of law and final decision and order on the Board's website, the printing of a summary of this matter by name in this publication, and the reporting of this matter by name to NCEES.

#### MINIMUM STANDARDS VIOLATIONS:

**Dalton W. Honore II, P.E., P.L.S.**, a licensed engineer (PE-27077) and land surveyor (PLS-4891), was subject to disciplinary action by the Board for failing to comply with the Board's minimum standards for property boundary surveys in violation of La. R.S. 37:698(A)(6), to wit LAC Title 46:LXI§2907(C) and 2907(G)(7). In 2004 Mr. Honore prepared, sealed and issued a survey plat for property in Louisiana which did not contain sufficient basis of bearings information and failed to indicate all corner monuments. Following a formal hearing, Mr. Honore stipulated to final findings of fact and conclusions of law and a final decision and order, wherein he was found to have committed violations of the above statute and rules and was assessed the following sanctions: fine of \$1,000; actual costs of \$5,076.34; successful completion of the Board's online Louisiana Laws and Rules Examination; successful completion of the Board's online Louisiana Professionalism and Ethics Examination; successful completion of the Board's online Louisiana Minimum Standards Examination; have a licensed Louisiana professional land surveyor correct the minimum standards violations on the ground and on a corrected survey plat, record the corrected survey plat, provide the corrected survey plat to his client, and provide satisfactory evidence of the accomplishment of these requirements to the Board; automatic revocation of his Louisiana professional land surveyor license in the event he fails to comply with any part of the final decision and order; and the printing of a summary of this matter by name in this publication and the reporting of this matter by name to NCEES.
