## **Chapter 29. Standards of Practice for Boundary Surveys**

### **§2907. Property Boundary Survey**

A. - F.7. ...

G. Plats and Maps. Every original plat or map of a property boundary survey should be a reproducible drawing at a suitable scale which clearly shows the results of the field work, computations, research and record information as compiled and checked. The plat or map shall be prepared in conformity with the following guidelines.

1. - 13. ...

14. Each plat or map shall show the following:

a. - b. ...

c. section, township, range, land district, incorporated area or community, parish and state (as applicable);

d. vicinity map. A vicinity map will not be required if there are sufficient features and landmarks (officially named streets and street intersections, lots and blocks within a subdivision, adjoining subdivisions, Township-Range-Section lines, etc.) on the plat or map that would sufficiently enable a person to identify the location of the survey site;

e. date of the survey;

f. name, telephone number, mailing address and license number of the professional land surveyor and, if applicable, the firm who employs the professional land surveyor;

g. signature and seal of the professional land surveyor under whose responsible charge the survey was done;

h. scale, written and/or graphic;

i. north arrow, and it is recommended that the drawings be oriented so that north is toward the top of the sheet; and

j. legend for symbols and abbreviations used on the plat or map.

15. ...

H. Descriptions. A written legal description of the surveyed tract of land shall provide information to properly locate the property on the ground and distinctly set it apart from all other lands. The following guidelines apply.

1. - 2. ...

3. Every aliquot description shall contain the following basic information: aliquot part of section, township, range, land district, parish and state.

4. Every subdivision lot description shall also contain the following basic information: lot, block, unit (if applicable), name of subdivision, incorporated area or community (if applicable), parish and state.

5. Every metes and bounds description may be written in at least two parts. The first part, called the "general description," shall indicate the general location of the property by naming the particular lot or block within which it is located if in a subdivision or by naming the grant or aliquot part of a rectangular section within which it is

located, along with the section, township, range, land district, incorporated area or community (if applicable), parish and state. The second part, called the "particular description," shall logically compile and incorporate calls for the following:

5.a. - 11. ...

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:688.
